Peeling Treatments

For the treatment of more specific skin conditions various peeling treatments are available. This protective renewal of the epidermis, the skin becomes fresher and more receptive to active ingredients and care.

Alpha Peel

A gentle fruit acid exfoliation improves skin texture and mild cases of acne.

EUR 45,00

Superficial Fruit Acid Peeling

Glycolic Acid 20% to a maximum of 70% for acne, pigmentation and treatment of actinic sun damage.

EUR 57,00

Deep Trichloroacetic Acid Peel

A stronger peel treatment for mildly scarred skin, pigmentation and minor wrinkles.

EUR 65,00

Skin Treatments

Upon request individual treatments can be augmented with additional agents (e.g. Hyaluronic acid, vitamin ampoules or collagen fleece).

Medical Treatment of Acne

Supportive treatment of skin blemishes. Facial with pre-cleansing, steam bath, deep cleansing, clarifying and calming mask, daily care.

EUR 49,00

Rosacea / Couperose Treatment

The medical treatment of red and irritated skin is done with a unique lymph drainage method and complemented with a pre-cleansing, gently cooling pack and daily skin-type appropriate care.

EUR 50,00

Microdermabrasion

Skin is exfoliated with micro-crystals which help improve the surface structure of the skin and thus promoting cell renewal. Ideal for scars, large pores skin, acne, cornification and the treatment of small wrinkles. In subsequent treatments specific active ingredients are able to better penetrate the skin.

EUR 45,00

Microdermabrasion combined with medical treatment of acne.

EUR 70,00

Hair Removal

Hair Removal with Diode Laser
